

NCEA Eagle

NCEA Eagle has been created by Otago University research scientists, graduates and teachers. It is the leading interactive revision tool directly tailored for the New Zealand NCEA external exams.

By removing all barriers for student success, the NCEA Eagle system allows students to become directly responsible for the grade they receive in each subject. It is currently available for Level 1 Maths, Science, Level 2 Maths, Chemistry, Physics, Biology and Level 3 Calculus, Statistics, Chemistry, Physics, Biology.

NCEA Eagle provides **one place** where students can:

- **Make revision notes:**
Have a record of what has been learnt and how it is going to be remembered.
- **Learn smartly:**
Build on knowledge from outstanding global resources. Utilize tools that boost memory and thinking skills.
- **Tracks progress:**
Create a ‘Plan of attack’ after viewing what has and needs to be done for each subject at each level. Help others with their progress.
- **Test knowledge:**
Practice on 450 of the most likely questions and answers in this year’s exams (updated yearly). Record what has been learnt and share knowledge.
- **Focus:**
Identify and remember correct information required for Merit and Excellence grades.
- **Interactive:**
Receive regular incentives, encouragement and inspiration to eliminate procrastination. Help and receive help from others doing the same subjects.

“It’s like having a personal tutor for the whole year for less than the price of one tuition session.”
